What is the Coffee Community Collective?

The Coffee Community Collective was created as a means to remove barriers for people living across northern Hamilton County. It offers a Community Room for organizations to host meetings, trainings, or gatherings. We partner with organizations like Helen Ross McNabb Center, Consumer Credit Counseling Services, and the Office for Family Empowerment to bring much-needed resources to our neighbors.

Success Story:

We had a Coffee Community Collective customer thank us for being a place to work on his college assignments during the pandemic. Before finding C3 he couldn't work at home because he did not have high-speed internet, resulting in him missing all of his zoom classes. He graduated in the fall of 2021, and said this was in large part due to the access we afforded him!

CommUNITY Schools

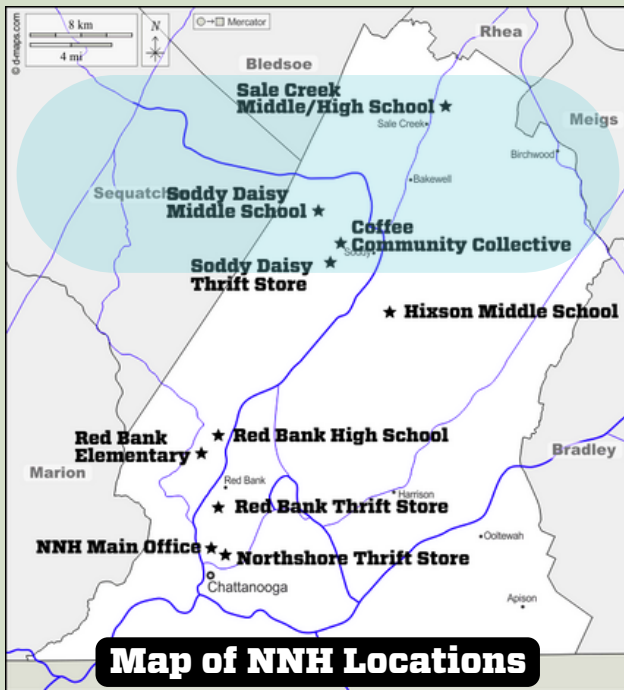

Through our CommUNITY School model, Northside Neighborhood House (NNH) CommUNITY School Coordinators partner with school administration to identify and provide wrap-around support to meet the physical, social and emotional needs of the students, families and school community.

Success Story:

We had an elderly, blind client who was forced to move out of her home when her new landlord greatly increased her rent. The client had to find a new place quickly. An unexpectedly high gas bill put her even more in a bind, along with various moving expenses. NNH was able to pay the gas bill to give her a chance to catch up. We referred her to some other services that would reduce her expenses and allow her to be able to manage her costs.

NNH's annual investment in No. Hamilton County: \$927,928
